**DEMAND FOR COMPLIANCE AUDIT**

Re: RTC - CSI License Agreements &  
Ecclesiastical Authority of Scientology

Dear Sirs,

I am a Scientologist. I understand that you represent SaveScientology.com and are collecting letters in support of a demand to the special directors of CST for a compliance audit into the relationship of RTC and CSI in the context of the license agreements.

I have read the letter dated September 22, 2011 by SaveScientology.com, which is entitled "Demand for Compliance Audit" and is published at <http://blog.savescientology.com> as part of its article entitled Action Series 3: Recapture CSI's Ecclesiastical Authority from RTC.

The letter outlines potential violations of the license agreements and overreaching by RTC into ecclesiastical authority LRH intended – and RTC & CSI agreed to be – for CSI, among other things. These important matters need to be investigated in a transparent and independent compliance audit.

I personally support the call for a compliance audit. It is essential for the future of Scientology that an audit be conducted into the questions set forth in the letter (and any other relevant inquiries). Any points found to be in noncompliance with the wishes of the Founder, or the law, should be immediately corrected.

If I have chosen not to use my real name, and instead have used a code name, it is due to my desire for anonymity at the present time. I will retain copies of my letter, and use the same code name in any future letters to you.

Sincerely,

\_\_\_\_\_
